Skua: 391-394	Twite: 149	Yellowshank: 238
Smew: 339		
Snipe: 261-265		

INTRODUCTION

The following List has been compiled with the view of giving to Ornithologists and Oologists a reliable list of the Birds of Great Britain and Ireland: resident and migratory, and occasional or accidental visitors.

Of the many lists already published, no one compilation gives any clear and accurate indication of the important sections enumerated above, into which each species falls.

To obviate this defect the following plan has been adopted.

All resident species and regular migrants are left *unmarked*.

Occasional visitors of the EUROPEAN fauna have an * affixed to their consecutive number.

Accidental visitors of EXOTIC faunas have a † in like manner: and to this mark the abbreviations:

Af.=Africa: Am.=America: As.=Asia: Au.=Australia: are added, thus clearly showing the habitat of each species.

The authority for each scientific name is given: when the initials are included in a parenthesis they refer only to the specific name: but when not so included, to the generic name also. The abbreviations are:

B	Bechstein	L.	Linnaeus	S.	Savi
Ba.	Baillon	La.	Latham	Sab.	Sabine
Bo.	Bonaparte	Lea.	Leach	Sav.	Savigny
Bod.	Boddart	Lei.	Leisler	Sch.	Schlegel
